

AI/ML Interview Guide (RAJ PDF)

Chapter 1: Introduction to Machine Learning

[illegible]

data...Machine learning is a subset of AI that focuses on building systems that learn from data...Machine learning is a subset of AI that focuses on building systems that learn from data...Machine learning is a subset of AI that focuses on building systems that learn from data...Machine learning is a subset of AI that focuses on building systems that learn from data...Machine learning is a subset of AI that focuses on building systems that learn from data...

Chapter 1: Introduction to Machine Learning

[illegible]

data...Machine learning is a subset of AI that focuses on building systems that learn from data...Machine learning is a subset of AI that focuses on building systems that learn from data...Machine learning is a subset of AI that focuses on building systems that learn from data...

Supervised vs Unsupervised

[illegible]

patterns...Supervised learning uses labeled data. Unsupervised learning finds hidden patterns...Supervised learning uses labeled data. Unsupervised learning finds hidden patterns...Supervised learning uses labeled data. Unsupervised learning finds hidden patterns...

Supervised vs Unsupervised

[illegible]

patterns...Supervised learning uses labeled data. Unsupervised learning finds hidden patterns...Supervised learning uses labeled data. Unsupervised learning finds hidden patterns...Supervised learning uses labeled data. Unsupervised learning finds hidden patterns...

Chapter 2: Deep Learning

[illegible]

Chapter 2: Deep Learning

[illegible]

Activation Functions

[illegible]

layers...ReLU, Sigmoid, and Tanh are common activation functions. ReLU is mostly used in hidden layers...ReLU, Sigmoid, and Tanh are common activation functions. ReLU is mostly used in hidden layers...ReLU, Sigmoid, and Tanh are common activation functions. ReLU is mostly used in hidden layers...ReLU, Sigmoid, and Tanh are common activation functions. ReLU is mostly used in hidden layers...ReLU, Sigmoid, and Tanh are common activation functions. ReLU is mostly used in hidden layers...

Activation Functions

Chapter 3: NLP

[illegible]

Chapter 3: NLP

[illegible]

Transformers

[illegible]

Transformers

[illegible]

Chapter 4: Computer Vision

[illegible]

Chapter 4: Computer Vision

[illegible]

Overfitting

[illegible]

Overfitting

[illegible]

Regularization

[illegible]

Regularization

[illegible]

Evaluation Metrics

[illegible]

classification...Accuracy, Precision, Recall, and F1-Score are key metrics for
classification...Accuracy, Precision, Recall, and F1-Score are key metrics for
classification...Accuracy, Precision, Recall, and F1-Score are key metrics for classification...
